```
          <input↵                 type="subject"↵                 class="form-control"↵                 id="inputSubject"↵
placeholder="Enter the subject"↵                 />↵
```

40. **Error** Attribute `type` not allowed on element `textarea` at this point.

From line 554, column 19; to line 559, column 19

```
          <textarea↵                 type="text"↵                 class="form-control"↵                 id="inputMessage"↵
style="height: 150px"↵                 ></text
```

Attributes for element textarea:

  Global attributes

  autocomplete — Hint for form autofill feature

  cols — Maximum number of characters per line

  dirname — Name of form control to use for sending the element's directionality in form submission

  disabled — Whether the form control is disabled

  form — Associates the element with a form element

  maxlength — Maximum length of value

  minlength — Minimum length of value

  name — Name of the element to use for form submission and in the form.elements API

  placeholder — User-visible label to be placed within the form control

  readonly — Whether to allow the value to be edited by the user

  required — Whether the control is required for form submission

  rows — Number of lines to show

  wrap — How the value of the form control is to be wrapped for form submission

Error Stray end tag `form`.

41. **Error** Stray end tag `form`.

From line 562, column 15; to line 562, column 21

`</form>`↵

42. **Warning** Section lacks heading. Consider using `h2` - `h6` elements to [add identifying headings to all sections](#).

From line 479, column 7; to line 479, column 15

`-->`↵ `<section>`↵
